LOCAL INTELLIGENCE.

LYONSVILLE, DRY VALLEY. Meadow Valley Company

Undaunted by th heavy weather, our reporter availed himself on Sunday of the invitation of Mr. Tyrrell, Superintendent of the Meadow Valley Mining Company, to visit Lyonsville, Dry Valley, about ten miles distant, to inspect the mill and other property of the Meadow Valley Company at that place. Considering the inclemency of the season, the trip was a very pleasant one, being provided with such wrappings as are indispensable under such circumstances. Lyonsville is quite a village, when to the mill and various work shops belonging to the company are added the twenty houses or more dwellings occupied principally by the employes of the company. The village has two stores, one Chinese restaurant, and a boarding

company one Chinese restaurant, and a boarding house, under the management of Mrs. C. B. Barstow, where are ample accommodations for forty or fifty borders.

The company's works consist of the mill, with six batteries of five stamps each; foundry and machine shop, retort and melting room, assay office, carpenter shop and blacksmith shop. Everything connected with the works is first-class, and the company, by the sole aid of the workmen in its employ, can make all needed repairs. The foundry turns out all the castings required with expedition and of the very first quality. The water used in the generation of the steam by which the mill is kept in motion is brought in a flume from a distance of 3% which the mill is kept in motion is brought in a flume from a distance of 3% miles above. A steam pipe is run from the mill to the foundry, a distance of 500 yards, so that one set of englines keeps both mill and foundry going. The mill is kept running principally on ores from the Meadow Valley mine, which are handed to the mill by teams, employing for that purpose a large number of drivers, as well as horses and mules. Some cratem work is also done, but not a creat deal, as the yield of the Meadow-Valley mine is sufficient to keep the mill in motion. While the snow lasts a sleigh ride to Lyonsville would be quite a pleasant pastime, and in and weather, when the roads are firm, no hetter way could be found to pass an idle day than to take a ride to Lyonsville and view the extensive works erected by the Meadow Valley Mill and Mining Com-pany. A colossal sum has been invested by the company in the erection of the mill and other works, and it is the desire of every well-wisher of this camp that the investment may prove a remunerative one. The company has over \$25,000 worth of wood piled up for future use.

Come to GRIEF. - Yesterday afternoon two gentlemen were coming down Main street in a sleigh with four horses attached. As they turned the corner into of snow which had been thrown from the sidewalk and had become closely packed. The concussion was so great that the leaders broke away and made their escape. Down the street they went, but were soon overtaken and conveyed but were soon overtaken and conveyed back to the stable. The other pair of horses were returned to the stable, and so what promised to be a gay time was brought to an abrupt termination.

Sunday night.

MEADOW VALLEY CHOP HOUSE.—Frank Schoonmaker, late of the Parlor Restaurant, in which he sustained his reputation as one of the best caterers in Pioche, is

yesterday afternoon the scene of a grand snow-balling match on Main street, in front of Hamilton's saloon, in which neighbor Hamilton was one of the principals. Judging from the broken pains of glass (19) in Hamilton's door and windows, we judge he was not the victor. The affair attracted quite a crowd, and many thought a fight had occurred, and the RECORD reporter rushed up street only to find that his hopes of obtaining a first-class sensa-tional item had been frusrated.

AN ERROR CORRECTED. - By some over sight which we are unable to account for, the part of a seatence was left out in our notice of the Raymond & Ely mine, as it appears in Sunday's issue of the RECORD. is the item was printed, Geo. E. Ames was improperly stated as being in charge works on one of the levels. The fact is that the two new boilers were be lact is that the two new bollers were be-ing placed under the direction of Mr. Ames, and the leaving out that portion of the item relating to the boilers gave the matter an entirely erroneous aspect. All the works were in charge of the fore-

Snow-Balling,-This is a very nice pastime for those who like it, but tastes differ about snow-balling as about many other things in this world. Certainly if a party of men or boys delight in such sport no one should object to an enjoy-ment of it. At the same time care should be taken that persons who take no hand be taken that persons who take no hand in the sport are not unceremoniously pelted with snow in spite of their protes-tations. It tends to stir up bad blood, and ought to be discontinued.

BURRO KETTLED. -On Sunday afternoon a burro was walking leisurely along Upper Main street, looking as grave as an owl, when some one, on mischief bent, tied a rope to his tail and attached the other to a coal oil can. Frightened at the unusual noise in his rear the burro ed down street with the speed of the anned down street with the speed of the an-telope, his movements being accelerated, possibly, by the frantic yells of many on the sidewalk. At last accounts our burro was still on the go.

Hoodlums.-On Sunday afternoon a Chinaman was passing down Main street, quietly attending to his own busihess. He was not only pelted with snow-balls, but one of the hoodlums, more en-thusiastic than the others, caught the Chinaman and threw him down in the snow. Finally John got away from his tormentors and fied in dismay. He has evidently no exalted estimate of 'Melican civilization.

Baiston Distaict. - In the Cave mine work is still continued. The tunnel having been driven in 156 feet, connecting with the winze; sinking on the vein has been continued. The vein is small at that point, and little ore is being extracted. The Mayflower, Nevada, and other mines have been bonded, and work was commenced yesterday. These mines look very promising.

FELL PROM HIS HORSE,-Yesterday as a horseman was turning the corner from Main into Lacour street, the flery steed stepped into an unseen hole, causing the horse to fall, and sending the rider over his head in the snow. No serious result followed:

Masonic,-A special meeting of St. John Lodge is to be held on Saturday evening for the purpose of installing of-floers under the charter, and electing of-fleers for the ensuing year. See adver-

PERSONAL .- T. S. Coleman, wife and children take leave of Pioche to-morrow morning. They leave for Han Francisco, via Hamilton.

HEAVY SNOW STORM. - The snow which as fallen within the past week in this part of the country is unprecedented. Gentlemen who have resided in this county seven or eight years inform us that the quantity which has fallen since the present storm set in is greater than at any time since they first came to the county. At present writing it looks as if Pioche was to be "snowed in" almost completely, and gives to our surroundings a cheeriess aspect, if the matter is viewed entirely from a superficial stand-point. Notwithstanding the possibility of being cut off partially from communication with the railroad, we state it as a gratifying fact there are abundant supplies in store here, ample for the sustenance of the entire population until Spring, even should so improbable a confingency arise as that alluded to above. However heavy the snow may be, it cannot interfere with the working of the mines to any great extent. Underground the climate is about the same the year round, and snow rain or hall cannot operate to impede the prosecution of the mine in industries upon which our markets. set in is greater than at any time since round, and snow rain or hall cannot operate to impede the prosecution of the mining industries upon which our prosperity mainly rests. The transportation of ores from the mines to the mills by the railway will also continue, and the reduction of the ores will go on as usual. The heavy fall of snow will doubtless increase the hay crop the coming season, and so compensate in a measure for the inconvenience and discomfort it now causes.

Screwen Room

Schewed Boors, -- Yesterday we dropped into the boot-making establishment of Mason & Wilcox, on Main street, a few doors above Halpin's. They have a very neat, though unpretending estaba very neat, though unpretending establishment, and are each engaged in the practical work themselves, assisted by the latest and most approved machinery used in that branch of business. Everything turned out by them is first-class, but screwed boots is their specialty. They have in use a very ingenious contrivance by which the screws are driven into the sole of a boot, clinches it on the inside and cuts it off. Boots can be screwed very rapidly by this means, and the work is neat and durable. Mason & Wilcox don't grumble about hard times, but are doing a good business.

THE CAPITOL SALOON.-Coleman & O'Neal, late proprietors of the Capitol Saloon, have dissolved partnership. Mr. O'Neal will conduct the business on his own account in future. We need hardly remind those who indulge in the "ardent," that the Capitol supplies to its patrons the best of wines and liquors— anything from an eye-opner to a night-

FAILED TO APPEAR.—We promised on Saturday that on to-day we would commence the publication of Judge Beatty's decision in the case of the Raymond & Ely vs. the Kentucky Mining Company; but we are unable to do so. However, the publication will be commenced to mor-row, and will be continued daily until the whole matter is disposed of.

STAGING .- Owing to the heavy snow on Patterson mountain the arrival of Lacour street they ran into a huge pile the Hamilton stage on time is not to be

MEADOW VALLEY CHOP HOUSE.-Frank Tournament.—They may have their grand billiard matches, but Pioche was second door from Johnston's livery statement of a grand billiard matches, but Pioche was second door from Johnston's livery statement of a grand billiard matches, but Pioche was second door from Johnston's livery statement of a grand billiard matches, but Pioche was second door from Johnston's livery statement of the property of the pest categories in Prop

PRIZES!

THE DRAWING OF THE PRIZES ON THE

"Ladies Fair Ticket," which was postponed at the late Fair held for the benefit of the
Catholic Church, will take piece at Armory Hall
on the evenings of Friday and Saturday next.
Holders of ticknic are hereby notified of the fact.
That all may have justice done them, the drawing will be in the usual mode. To make the
evenings interesting and plessant, the ladies of
the fair will conduct a small festival, at which
various articles will be up for raffe. The proceeds of the festival will be devoted to a very
worthy and ascred purpose—that of fencing in
the Catholic burying ground. Let those then
who have chances in the lottery and are anxious
o win their fortune, as well as those who desire to show their love and respect to the dead,
attend the festival at Armory Hall, on the two
last nights of this week.

Notice! Notice! OFFICE FLORAL SPRINGS WATER Co., July 30, 1873. THE FOLLOWING REGULATIONS HAVE been duly adopted by resolution of the Board of Trustees of the

FLORAL SPRINGS WATER CO. They are to be strictly observed by consumers of Floral Springs water:

1. In all cases of non-payment of the water can within three days after presentation of bill the supply will be cut off, and the water shall not again be let on, either for the present or any subsequent occupant, except upon the payment COLLECTIONS MADE.

not again be let on, either for the present or any subsequent occupant, except upon the payment of the amount due, together with the sum of two dollars; provided that in cases of specific supplies, or for fractional parts of the month, where the water has been let on, it may be cut off immediately after notice given at the place that the rent is not paid, and may be let on again upon the condition before mentioned.

2. No person or family supplied with Floral Springs water will be permitted to use the water for any other purpose 'ban that stated in this agreement, nor to supply water in any way to other persons or families.

3. Consumers shall prevent all unnecessary wasts of water, and shall make no concealment of the purposes for which it is used.

4. No alterations shall be made in ar waterpape or fixture without first giving notice or the titlended alteration at the office of the Company.

5. In all cases where water is to be supplied to several parties or tenants from one connection or tap, the Company contracts only with one of said several parties, and on his default to abide these regulations, and pay the rates, will cut off the connection.

6. Whenever any of these regulations shall be violated the supply of water will be discontinued, and not resumed until all charges and expenses are satisfied.

7. All persons taking water shall keep their service pipes in good repair, at their own expenses, and they will not her failure todoso.

8. Sprinakling with hose and standing irrigators will not be allowed un-

8. Sprinkling with hose and stand-ing irrigators will not be allowed un-der any circumstances. 9. The inspector, or other properly authorized officer of the Company, shall be admitted at all reasonable access to all parts of any premises supplied with water, to see that these regulations are observed. ises supplied with water, to see that these regulations are observed.

The atjention of customers having pipe connections is hereby called to the above fittles and Regulations, adopted by the Board of Trustees, and which are hereafter embodied in all contracts for water, and required to be signed before the supply will be furni-hed. The above regulations will be strictly enforced, and parties neglecting or refusing to comply w them will have their supply of water discontinued at once. The Company reserves the right of placing meters on all places supplied through the pipes, in which case two and one-half cents per gallon will be charged for the water used, and one-half the cost of the meter and placing upon the premises. Parties having hose, in case of fire, will be allowed to use water to extinguish the same free of charge. Water will be supplied By carts, within the main
